DETAILED ACTION

Response to Amendment

1. This office action is in response to amendment and arguments filed on 3/14/05. The provided amendment does not place the application in condition for allowance, as amended, because some of the limitations of claims 1, 14, 27, 28 and 29 after amendment have insufficient antecedent basis. For instance in claim 1 the limitation "said torque command signal and said compensated torque command signal" in lines 7 and 8. The same problem occurred in corresponding lines of claims 14, 27, 28 and 29. The rejection of claims follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 1, 14, 27, 28 and 29 recites the limitation "said torque command signal and said compensated torque command signal" in lines 7 and 8 in claims 1 and 14, in lines 9 and 10 in claims 27 and 28, and in lines 8 and 9 in claim 29. There are insufficient antecedent basis for these limitations in the claims.

Allowable Subject Matter

5. Claims 1, 14, 27, 28 and 29, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
